

In the Fisher's Geometric Model the level of stress inflicted by a stressing environmental change depends on the three parameters:
 r_{max} , r_D and λ

In the **F**isher's **G**eometric **M**odel the level of stress inflicted by a stressing environmental change depends on the three parameters:
 r_{max} , r_D and λ

In the **F**isher's **G**eometric **M**odel the level of stress
inflicted by a stressing environmental change
depends on the three parameters:
 r_{max} , r_D and λ

In the **F**isher's **G**eometric **M**odel the level of stress
inflicted by a stressing environmental change
depends on the three parameters:
 r_{max} , r_D and λ
